The Student Resource Center (SRC) offers comprehensive support to students, covering university policies, academic coaching, mentoring, and community connections to aid in successful postsecondary education completion. With a focus on basic needs, food assistance, and tailored resources for students with families, first-generation and non-traditional students, the SRC aims to educate, connect, and motivate students while providing essential services and fostering a supportive campus environment.

If you have any questions or would like more information about the Student Resource Center, please feel free to contact us. The Center looks forward to hearing from you.
