

Science, Engineering & Technology (SET)

SET 1000. Graduation Planning & Career Prep I. 0 Hours.

Recommended for all students within the College of Science, Engineering & Technology starting their second semester in their major. This course will prepare students to create and submit a graduation plan and begin exploring their career pathways. This course is designed to help students be better informed as they make decisions regarding course rotations, prerequisites, and elective choices as well as minors and certificates they may choose to pursue during their education.
