

# Accounting, BS

---

## **BS Accounting Program Learning Outcomes**

At the successful conclusion of this program, students will be able to:

1. Evaluate real world business situations related to the core business functions of accounting, economics, finance, qualitative analysis, information systems, international business, legal and social environments, marketing & management.
2. Analyze real world business situations by identifying relevant business issues, performing appropriate quantitative and qualitative data analysis and synthesis, formulating viable courses of action.
3. Create and deliver professional quality oral presentations and written work products.
4. Analyze real world business situations by identifying relevant ethical issues, evaluating and synthesizing information, and formulating ethical courses of action.
5. Provide a foundation of accounting, tax, auditing, and ethical knowledge allowing students to analyze and interpret structured and unstructured business information and make business judgments.
6. Support community engagement through collaboration and applied learning opportunities that demonstrate a commitment to ethical and professional service and honors the public trust.
