

Finance, BS

Program Description

B.S. Finance is an application based degree with the objective to prepare students to pursue a career in corporate finance, personal financial planning, banking, or research. The program integrates theory with the acquisition of critical thinking, analysis, and technical skills sought by employers. Students learn about financial markets, institutions, and securities. They also learn to conduct and effectively present financial analysis of corporate projects and financial securities. In the capstone course, they will manage an investment portfolio in an active learning setting.

Program Curriculum

120 credits
