

Criminal Justice - Criminology Emphasis, BA/BS

Program Description

Utah Tech's Criminal Justice major is an interdisciplinary program that combines the study of criminal law, law enforcement, and criminology, providing a firm foundation for a myriad of careers. This course of study exposes students to the interconnected nature of the criminal justice system and explores criminological explanations for crime commission. Graduates from this program are prepared to enter applied positions in the criminal justice system or pursue graduate degrees in law, criminology, sociology, forensics psychology, etc. The criminology emphasis is comprised of 33 credits in addition to the established criminal justice core curriculum. This emphasis prepares students to analyze criminal behavior by using established criminological theory and appropriate research methods. Areas of study in this emphasis include victimology, policing, juvenile delinquency, and crimes against humanity. Students apply a practical approach to criminological theory and methods by utilizing them to complete a capstone project.

Program Curriculum

120 credits

BA/BS Criminal Justice Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Describe the major components of the Criminal Justice system and the fundamental processes that take place therein
2. Compare primary criminological theories and their respective causal arguments.
3. Apply correct criminological theory to address criminal behavior, crime trends, or criminal justice policies/practices.
4. Differentiate basic methodological techniques employed in the past and current criminological research.
5. Appraise research that illuminates the strengths and weaknesses of current criminal justice policy or research that attempts to reveal the causes of criminal behavior.
6. Apply appropriate research methods to analyze varying criminal behaviors or functions within the Criminal Justice system.
