

Management, AS

AS Management Program Learning Outcomes

At the successful completion of this program, students will be able to:

1. Create a self-study of personal strengths and abilities and apply that knowledge to successful career exploration and development.
2. Demonstrate critical thinking through problem-solving and innovation relative to existing and emerging issues.
3. Identify and apply quantitative principles and methods in the solution of problems and draw and evaluate conclusions in order to check the logic and validity of statements and models.
