Certified Nurse Assistant (CNA) Certificate

CNA Certificate Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Recognize and implement effective communication techniques with patients/residents and members of the interdisciplinary healthcare team.
2. Describe the chain-of-infection, bloodborne Pathogens (BBP) and methods to promote safe, evidence-based infection control practices.
3. Recognize and report changes and abnormalities to the nurse and perform safety/emergency procedures.
4. Identify, discuss, and apply components of restorative and rehabilitative nursing care.
5. Demonstrate considerate and respectful care of patients by complying with patient rights.
6. Apply specialized job skills and abilities that may be required in the settings for sub-acute care, long-term care, individual's home and hospital.
7. Demonstrate knowledge and skills necessary to complete the Utah State certification skills and knowledge exams with a passing score.
