

Psychology, BA

BA Psychology Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Differentiate and compare major concepts, theoretical perspectives, historical trends, and empirical findings within psychology, and discuss behavioral problems.
2. Use scientific reasoning to examine psychological phenomena; demonstrate psychology information literacy; engage in innovative and integrative thinking and problem solving; understanding and appropriately utilizing basic scientific methodology; and incorporate sociocultural factors in scientific inquiry.
3. Apply ethical standards to critique and evaluate psychological science and practice in the context of various communities.
4. Demonstrate competence in writing and in oral and interpersonal communication skills, including their ability to utilize research to compose original arguments/hypotheses, as well as to revise their writing.
5. Apply psychological principles to real world practical experience and show evidence of career preparation.
