

Digital Film, BS

BS Digital Film Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Assess and critique the efficacy of various theoretical filmmaking techniques by surveying the evolution of cinematic language within various historical and cultural contexts.
2. Identify and apply professional film industry standards regarding set protocol, etiquette, and safety through practice operating in various capacities on film sets.
3. Examine, assess and apply technical skills related to a variety of audio-visual equipment, hardware, and software required during the pre-production, production, & post-production processes.
4. Design, coordinate and execute meticulous production plans and schedules for collaborative film projects from conception to delivery.
5. Appraise and apply various visual, aural, and written communication techniques to convey the elements of story
